About Yanki Yazgan, M.D.

Yanki Yazgan, M.D. (1959), received his child and adolescent psychiatry training at the Yale Child Study Center of Yale School of Medicine in New Haven, Connecticut where he also completed a research training track in early onset neuropsychiatric disorders.

Dr Yazgan has taught and conducted research at the Marmara University School of Medicine (as a full professor) and at the Yale Child Study Center (where he has a clinical appointment).

In addition to his medical career as a researcher, academician and physician in private practice, Dr Yazgan has spoken to and written for professionally and agewise diverse audiences on everyday implications of current neuroscience findings and his clinical experience as a psychiatrist, for the purpose of public understanding of science. He is also an active user of social media for dissemination of scientific knowledge and clinical experience (@yankiyazgancom). For further information please visit www.yankiyazgan.com
